

INTERIOR FINISHES

WALL & CEILING PANELS

NORDIC PAINTED WALL PANELS

NORDIC WALLS FROM HUNTONIT

- Produced in Norway with nothing else but pure natural wood fibres. The fibres are compressed and fused together in a heat and water process, no other additive or glue.
- Patented brush painted surface - The panels are treated with five coats of environmentally friendly water-based acrylic paint. The finishing layer is a protective coating.
- The only pre-painted wall and ceiling panels recommended by the Norwegian Asthma and Allergy Association.
- Approved for an Indoor Climate Label from the Danish Technological Institute.
- Durable and low maintenance. The panels are easy to clean, and can be re-painted without using a primer.
- The dense complexion makes them suitable for fixtures and fixings.

BRUSH PAINTED PANEL - Nordic Painted Wall

Pre-painted shadow profile with brush painted surface.

The profile provides an original and timeless expression.

Delivered in a 2 pack, making them easy to carry. Panel size: 11 x 620 x 2390 mm

BEADING & ACCESSORIES

ARCHITRAVES, SKIRTING BOARDS, COVING AND BEADING

In order to complete a project beautifully, you need high quality finishing products. We stock a wide variety of sizes and profiles of anything you would need for those finishing touches. Made from pine-wood and all factory sprayed white, so no need for painting them after installation. And what is better, they are environmentally friendly, durable and long lasting, as they are made from real wood.

**We always stock the below profiles.
If you are after a different type, contact us for larger quantities.**

**FACTS**

- Approved for an Indoor Climate Label from the Danish Technological Institute, and M1 Environmental Certification.
- The only pre-painted wall and ceiling panels recommended by the Norwegian Asthma and Allergy Association.
- Durable and low maintenance. The panels are easy to clean, and can be re-painted without using a primer.
- The dense complexion makes them suitable for fixtures and fixings.
- Down lights may be installed in all our ceiling panels. Nordic Ceiling Panels are resistant to moisture, and can be installed in bathrooms but not inside the shower area.
- Quick and easy fitting without the paint job.

ENVIRONMENTALLY FRIENDLY

NORDIC WALLS & CEILINGS are pure natural products which do not have any emissions of harmful gasses. Tested to M1 Emission classification of building materials.

The panels are made using pure wood-fibres in a process with water and compressed under heat. The process is done without adding glue which would compromise emissions and using the clean binding material Lignin, which is a natural ingredient in wood.

Thanks to being made by pure wood and tested for low emission the product is recommended by the Asthma and Allergy Association in Norway.
